

IF WE DON'T WAKE UP, WE WILL NEVER GROW UP

Wake up and fight complacency. *Too many Christians have become lazy and comfortable in a world that is going straight to Hell. Each of us has a role to play, and we have to do what we are called to in our social circles, our families, our churches, and our world.*

Wake up and stick with the truth. *Most people are not telling the truth. The road to destruction is broad and full of people. Satan tries to blur the hard lines that Scripture draws, and when he succeeds, more people end up on this road.*

Wake up and get things right with God. *Those who are not believers in Jesus need to take that first step and battle back against the false teachings and understandings that cause them not to respond to God's call. Those who are believers need to make the determination to live for Christ in the way that the Bible instructs us to. True believers in Jesus will not live the way the world does, yet many who claim the name of Christ continue to live like those who reject Him.*

1. Every Christian can benefit from an honest assessment of what areas in their lives they have become complacent. Sometimes, however, it is difficult to really see those areas without a lot of difficult and deliberate soul-searching. Take some time in your group to talk through the areas in which you have become complacent. Together, work to identify reasons why this complacency has taken root and what steps you can take to grow past it and better take on the role God has for you.
2. Statistically speaking, the vast percentage of people who have ever lived have not accessed the narrow road to life of which Jesus teaches. Satan has done an amazing job convincing the world that there is no need for the truth that leads to eternal life. How can we combat this in our everyday lives? What influence can you have on those around you that may save their souls?
3. What habits, teachings, or viewpoints from the world have you seen those who claim the name of Jesus try to adopt into their version of Christianity? What worldly practices have you accepted into your own Christianity? What behaviors need to be cut out of your life to improve your relationship with Jesus?
